

Designated Fishery Guardian – Career Progression Paths

The core program is the legislated pathway through the *Fisheries Act*, which legally designates fishery officers and fishery guardians. Other designations may be bolted on once the core standards are achieved.

*Identify partnering departments and agencies, e.g., NRCan, TC, ECCC, Parks, etc.

Resource-related peace officers have certain powers under the *Criminal Code of Canada* and enforce specific resource legislation. For example:

- Park wardens: *Canada National Parks Act*
- Wildlife enforcement officers: *Canadian Wildlife Act*, *Species at Risk Act*
