

Recognition of AAROM among partners

Direct DIALOGUE with DFO on programs?

ongoing exchange

TK can't be separated from Values

IMMAPIVUT "our waters"

Oceans Management

How does OUR knowledge fit?

Need to hear government expectations

lots of talk

Hard to find IK

WHERE can I find that?

Western vs Traditional

How to fit this together?

ANGER & racial tension

Subtle & overt!

Our knowledge as indigenous fishers is IMPORTANT!

Research + surveys

TK Collection

Science, Monitoring & Data

Need to do more OCEAN research

Some service contracts for (could be better @ this)

larger vessels

equipment

training

formal mentoring hands-on

Province

- limited by #
- 1 ↑ capacity
 - 2 Stable & adequate \$
 - 3 Jurisdiction/co-management - MAMKA

- ## Priorities
- Limited by treaty context
- 1 Benefit to communities
 - 2 Diverse \$
 - 3 sharing - APC
- 1 AAROM for Labrador
 - 2 Fisheries strategy - NunatuKavut
 - 3 Access to \$ programs
 - 4 Recognition of Inuit knowledge
 - 5 Intent of agreements - Nunatsiavut

- ## wish list
- ↑ management structure
 - FTEs
 - Capacity for new areas
 - Adequate compensation
 - OHS training
 - Long term funding
 - Senior policy analyst
 - GIS person
 - Longer-term \$
 - Training & mentoring
 - Communication: effectiveness
 - Analyse multiple data sources
 - Representing APC: communities 1st & 2nd

Don't see Indigenous Knowledge reflected in decision-making

WE TALK about this but NOT INCORPORATED

Char habitats (Lab)

Atlantic (wild) salmon

American eel

Wolf fish

Banded killifish

Species-at-Risk

Science gaps

Climate change

Engaged with gov't directly but Indigenous lens gets lost

No AAROM

Remote access / emerg response

Capelin

NEED capacity to respond to 'as Ks' (MAMKA)

NEED to respond to emergencies (MAMKA) (including cost, salvage & fuel spills)

Emergency Response

Invest in TK systems!

Invest in AAROM expertise is important & requested but under-funded

long-term YEAR ROUND!

NOV 10/17

Other

Collaboration

Commercial: lobster, cod, shrimp, whelk, sea cucumber, tuna & sword fish

Floating & land-based classroom

engagement

tradition @ technology @ research

NEED managers & experience

Communications (APC)

Co-governance advocates

Industry partner leads

Climate change

Expertise in ALL

Aquaculture ind. offshore

Renewable energy

Data mgmt

Legal expertise

Innovation

MOORE FORMAL COLLABORATION in science & more

Eligibility of MODERN LAND CLAIMS agreement-holders!
